

The Ellen MacArthur Cancer Trust 2008

14 January 2014

PHB received a lovely letter from The EMCT thanking the firm for our support this year. It's been their busiest year to date. The Trust has been able to increase the number of young people they can work with, working for the first time with Leeds, Manchester and Sheffield hospitals. Since 2005 they have tripled the number of young people they take sailing and young people were also invited to return to sail in the JPMorgan Round the Island Race, Skandia Cowes Week or Bradwell Residential Dinghy Week.

The following quote sums up how The Trust is able to help young people:

"It was the best week of my life." Daisy, 15 Bristol Hospital. *"This was the perfect trip for Daisy, she is now so positive about everything."* Daisy's mother.
