

Wrap Up London

07 January 2014

Employees braved the cold weather (and delighted in the excuse to buy new Winter garments) by donating their old coats to the Wrap Up London campaign, a promotion by Hands On London encouraging people to donate to and support their local community. Wrap Up London provides coats to over 100 charities including homeless centres, drop in centres and refuges for the most disadvantaged members of society. As a firm we collected over 25 coats centrally with many more employees taking their own coats to participating stations as part of their commute.
