

Wrap Up London 2014

12 November 2014

The firm supported the 4th Wrap Up London coat collection campaign run by Hands of London. It was not only an excuse to replace last year's winter coat but more importantly to support this worthwhile initiative collecting coats to distribute directly to shelters for women and children, the homeless, refugees, asylum seekers and the elderly. Last year Wrap Up London managed to collect 15,700 coats and they hope to better that figure this year.

As well as staff delivering their unwanted coats to their nearest station depot, a total of six coats were collected at the office and dropped off at the firm's local station.

Thank you to all staff who kindly contributed to their unwanted coats.
